2026

Sameer Gupta

Summary

Systems engineer from Infra as Code domain, with ~ a decade long experience of managing live infra and sandboxed build reproducibility with functional programming.

Stack

Languages & Tools

- **Functional Programming:** Haskell, Rust.
- **Infrastructure:** Kubernetes, Terraform, S3, Prometheus, Grafana.
- **Containers:** WebAssembly, Podman, K8S, K3S pods and sandboxing with Nix.
- **Frontend:** CSS (Clay), Pandoc.
- **Scripting:** Lua, Emacs Lisp, Bash, Python, Yaml.
- **Network:** Virtual Distributed Ethernet, Linux, Homelab Mesh, Intel and open hardware.
- **DevOps:** GitLab CI, Secret Provisioning, Community code.

FOSS & Open Source

A microservice written in rust for a wasm container, later written as a nixos module for equivalent systemd service.

Experience

2024–25 | Freelance Trainer — Data & Cloud Infrastructure, Hyderabad.

Trained engineers in data lake architecture — Medallion and Data Vault patterns for durable, auditable foundations — cloud-native Kubernetes, NixOS reproducible deployments, and hybrid models balancing cost and latency.

2023–24 | Sr. Haskell Developer — Haskledger

Proposal: network-namespace process isolation to reduce port conflicts and improve data integrity in Cardano. Community voted in support in Fund-11, Ideascale.

- Partnered with D.A.O. Konma, Chennai to pitch to the Cardano community
- Leveraged Haskell's function aliasing and automatic derivation

2019–23 | Freelance Network Programmer

Prototyping interconnection services for crypto mining data centres.

- Full cycle: value proposition Z192 feasibility Z192 simulation Z192 prototype Z192 pitch
- IPFS P2P, self-hosted Linux services with Podman, cloud VPC and serverless on tunnels

2016–19 | Freelance Web Developer

Front-end features and UI fixes for seed-funded startups; web admin, app firewalls.

2015–16 | Data Science Lead — Examify, Mumbai

NLP pattern recognition; ML with CUDA; reported to CTO and CEO.

2010–12 | Faculty, Physics

Preparatory physics for IIT-JEE at commercial institutes; content team collaboration.

Education

2006–2010 | B.Tech, M.E.M.S. — Indian Institute of Technology Bombay

Applied Physics, Mathematics, CS-101. Winter intern at I.I.M. Bangalore (traffic policy R&A).

Dorm startup *JeeCarnot*: statistical analysis of competitive exam outcomes.

Communication
